Meet Eldo Fresh Farm

One farm, three favourites: sheep and cattle that keep us on our toes, coffee that keeps us up, and a garden of kale, French beans, corn, cow peas and passion fruit that keeps us honest. Based in Kimoning, Eldoret, we're the farm behind Eldo Link Exports Limited — 100% Kenyan-owned and run hands-on by our founding director, Peter Gitau K. Chelimo.

No fuss, no middlemen — just a farm-to-buyer relationship that actually picks up the phone.

- Diversified produce — one call covers livestock, coffee, and veggies
- Founder-led, so quality is personal, not outsourced
- Growing steadily toward regional and export-ready trade
- Flexible for retail, wholesale, or institutional orders
- Available year-round, so you can order with us any time

What We Grow

The short version — three product lines, one very busy farm, available all year round:

Category	Highlights	Unit	Availability
Livestock	Live sheep & cattle, plus dressed mutton/beef on order	Per head / kg	Year-round
Coffee	Red cherry, parchment, and milled green beans (AA/AB)	Per kg / 60kg bag	Year-round
Horticulture	Sukuma wiki, spinach, cabbage, French beans, corn, cow peas & passion fruit — harvested to order	Per kg / bundle	Year-round

Plus: we aggregate and help move produce from nearby partner farms too — think of us as your one friendly contact for North Rift agri-trade.

Prices, grades and quantities are confirmed at the point of order — nothing here is set in stone (except maybe the cabbage).
